

The company **PMT-Jetmill GmbH** was founded in 1993 and is today one of the worldwide leading companies in the area of ultrafine powder processing. We are working on one hand in field of planning and delivering of grinding and classifying machines and on the other hand in toll processing of raw materials for our customers.

Our

GUIDING PRINCIPLE

is based on the

COMPANY POLICY

consisting of a lived

Environmental- a. Safety Policy and a Business Policy

The protection of Human Beings has our Highest Priority.

We want to follow our liability to ensure the safety and health of our employees and of third parties.

Also we want to ensure to avoid each accident or incident, which causes any damages of goods or environmental contamination.

The continuous development and improvement of our attempts is evident. All employees are requested to share these thoughts through active notification and consequent realization of the required actions.

The Development and Use of New Technologies combined with Well Known Processing Steps Guarantees a Stable and Healthy Growth of the Company.

We want to fulfil all our social obligations. This applies for both our employees as well as our customers.

Our cooperative relationship with our customers and suppliers is based on confidence, which we also put into our employees.

We want to invest continuously in our future – but we also want to preserve the created. Only economical success enables creativity and development.
